Kenrick Tan

Protocol Engineer at Galaxy Digital | Singapore

kenrickles@gmail.com | github.com/kenrickles | LinkedIn

I desire to be a T-shaped problem solver and believe in paying it forward.

Experience

Protocol Engineer | Galaxy Digital

Sep 2025 - Present | Singapore

- Platform and infrastructure engineering for digital assets.
- Working across protocol engineering, release delivery, and operational reliability.
- AI Champion, exploring practical applications of AI in engineering workflows.

SRE Specialist | Prudential Singapore

May 2024 - Sep 2025 | Singapore

- Led the migration from Bitbucket to GitHub Enterprise and standardized CI/CD across business lines.
- Designed an MVP internal AI tooling suite with a custom MCP server integrating LLM automation into Jira and Confluence.
- Co-led release management automation with ticket validation, dependency checks, and Jira-linked release gating.
- Architected reusable GitHub Actions workflows with Docker, Helm, and GitOps-driven multi-environment releases.
- Introduced secrets rotation, image scanning, Renovate automation, and static analysis tools (Checkmarx, Snyk, Codacy).
- Mentored SRE/DevSecOps teams across SG/CN/IN/VN while aligning stakeholders in regulated environments.

Senior DevSecOps Engineer | Partior Pte Ltd

Mar 2023 - May 2024 | Singapore

- Containerized GoQuorum and 8 DApps, packaging hardened images for production.
- Built Helm charts for GoQuorum and DApps, managing 7 Kubernetes environments with 40+ clusters.
- Integrated HashiCorp Vault via External Secrets Operator and enforced mTLS/TLS across networks and apps.
- Delivered end-to-end integration testing across seven release cycles.

DevSecOps Engineer | Partior Pte Ltd

Feb 2022 - Feb 2023 | Singapore

- Co-developed an one-touch DevOps automation pipeline for delivery of a secure, easy, fast, highly available and scalable strategic blockchain network across multiple cloud platforms
- Containerisation of GoQuorum blockchain network application for strategic platform including all peripheral for deployment of an optimum cloud-container-native application network.
- Containerisation of DApps for clients to deploy easily with AWS EKS and GCP GKE
- Co-develop a command line interface in go-lang based on the Cobra framework
- Smart contract deployment via CICD Pipelines using Github Actions
- Cloud native deployment for sitnet, testnet and prodnet
- Integration of Hashicorp Vault with CICD Pipeline and k8s clusters alongside External Secrets Operator

Associate Cloud Engineer | Versent Singapore

May 2021 - Feb 2022 | Singapore

- Migrated CI/CD from Bamboo to Jenkins for 250 projects and delivered training enablement.
- Led technical debt analysis and remediation across 38 issues.
- Troubleshot Azure DevOps pipelines and delivered a Prometheus/Grafana/Thanos + ArgoCD POC.

Financial Adviser | Prudential Singapore

Dec 2019 - Apr 2021 | Singapore

- Accomplished the Management Associate Program goal of S$356,000 over a 14-month period
- Qualified for Million Dollar Round Table 2021 (1% of Prudential agents qualified for 2021)

Teaching Assistant | Singapore Management University

Aug 2016 - Dec 2016 | Singapore

- Provided support for Professor Venkat SN in a class of 45 students, including facilitating group consultations, grading weekly class participation, and managing administrative tasks.

Education

Rocket Academy

Coding Bootcamp (Frontend, Backend, DSA)

Sep 2020 - Apr 2021 | Singapore

Learnt practical technologies and key principles for Front-end and Backend Apps as well as Data Structures and Algorithms

Singapore Management University

Bachelor of Arts, Double Major

Aug 2015 - Jan 2020 | Singapore

High Merit in Psychology and Corporate Communications

IE University

Exchange Program

Jan 2018 - May 2018 | Segovia, Spain

Certifications

CKA: Certified Kubernetes Administrator

The Linux Foundation | Sep 2021

Recognition

Ho See Beng Scholarship

Singapore Management University | Jan 2017 - Dec 2017

- Receipient, Bond Free Scholarship (SMU-ADMINISTERED)

National Service

Criminal Investigation Department | May 2013 - Mar 2015
